

HEALTH & SAFETY PROCEDURES

Personal Protective Equipment

Face masks are encouraged to be worn at all times and must be worn in all circumstances where 6ft minimum social distancing cannot be maintained.

Appropriate eye protection and work gloves must be worn at all times by all site operatives.

Site Requirements

All persons entering the site must check in with the Site Foreman. Site Foreman will be permitted to ask questions of any persons related to COVID-19, administer a temperature check or health condition survey and will maintain a daily log of all persons who attend site.

Social distancing must be maintained at all times, with a minimum of 6ft between persons.

Hand wash stations will be identified on each jobsite and stocked with necessary consumables. Hands must be washed by all persons upon entering the site, and operatives must wash hands before and after each break time and whenever work gloves are removed.

Sanitizing wipes will be available on job sites. These are to be used to wipe down tools at the end of the day, and prior to sharing tools with other operatives.

Project Specific Requirements

Staffing levels at each site will be established by Greymane Management to ensure social distancing can be effectively maintained.

Requirements for deep cleaning, restricting areas of access, implementing full temporary protection barriers and infection control procedures will be assessed by Greymane Management on a case by case basis.

Disclaimer: These measures will be updated as we receive updates on the COVID-19 Virus and it's affect on Bermuda, and in-turn, Greymane.
